Continuation Sheet (PTOL-303) 009/502,627

Application No.

Confinuation of 2. NOTE: "... and if the end user does not request hosting of the one or more encoded media files, enabling the end-user client to access the one or more encoded media files without hosting the files for access on a hosting server have not been presented before.

Continuation of 5. does NOT place the application in condition for allowance because: Applicant argues that Sparks doesn't teach encoding files in a particularly requested format. Exmainer disagrees. It is inherent for the media file, such as a mepg, to be encoded already in a particular format.
